

# Make It Work With You

Dasha

Can't get tired of you I swear  
So inspired by you I swear  
I wanna be where you are  
Be the one that you're choosing

Day one we been matching energies  
Never let anybody close to me  
But you're making all of these thoughts in my head sound like music

Whatchu wanna do  
About me and u  
What'd we get ourselves into  
But all that I know is that I'll never stop trying, I'll never stop trying  
To make it work with you

I'm not ready to let go of this  
But you had make it harder than it had to get  
Just learned how to fall asleep with butterflies in my body yeah  
You said to talk with honesty  
Boy I could see forever with you honestly  
Waking up late in the rain playing games drinking coffee

When it's all said and done yeah  
You could be the one yeah  
After ten years still be everything I want yeah  
I've been feeling like I'm bout to drown  
So I gotta get out this small town  
You'll see me on TV causing the chaos  
Just as I should I swear I'll make it pay off  
Said you never wanna hold me back  
So I gotta ask

Whatchu wanna do  
About me and u  
What'd we get our selves into  
But all that I know is that I'll never stop trying, I'll never stop trying  
To make it work with you

What'd we get ourselves into  
I really thought we'd make it through  
But all that I know is that I would be lying  
If I said I'll stop trying  
To make it work with you  
Make it work with you  
To make it work with you  
But all that I know is that I'll never stop trying, I'll never stop trying  
To make it work with you
