

# More Than This

Dasha

At this rate, I'm not gonna have bridesmaids  
Haven't seen my friends in seventeen Fridays  
Spending all my time on you

At this rate, I should throw away my crop tops  
Wear your hoodies 'cause you say I make 'em look hot  
Are you all I'm ever gonna do

Never really been the kinda girl to throw a fit  
Lately, I've been wondering if this is really it  
My girls have all been asking where I think this thing will go  
How we getting married when we never leave your home

All we ever do is hang out, make out, order up too much take out  
Watch the same damn movies, drink some mango truly's  
All we ever do is stay in, sleep in, why go out when you're three in  
Damn I'm getting bored of this, tell me that there's more than this, more than this

Now tell me, are you sure you're happy  
Frozen dinners on your birthday ain't it classy  
Good as we're gonna get

So tell me, (yeah) is this what you wanted  
Are you having fun yet (are you having fun yet)

At this rate we're dying in your basement, no way to escape it  
We're both stuck but you and I are never gonna say it  
Awkward conversations, love you but I hate this

All we ever do is hang out, make out, order up too much take out  
Watch the same damn movies, drink some mango truly's  
All we ever do is stay in, sleep in, why go out when you're three in  
Damn I'm getting bored of this, tell me that there's more than this, more than this

Tell me there's more (tell me there's more)  
Tell me there's more (tell me there's more)  
More than this, tell me there's more to this

Never really been the kinda girl to throw a fit  
Lately, I've been wondering if this is really it

All we ever do is hang out (all we ever do is, all we ever do is)  
All we ever do is hang out (all we ever do is, all we ever do is)  
All we ever do is hang out, make out, order up too much take out  
Watch the same damn movies, drink some mango truly's  
All we ever do is stay in, sleep in, why go out when you're three in  
Damn I'm getting bored of this, tell me that there's more than this, more than this

Tell me there's more (tell me there's more)  
Tell me there's more (tell me there's more)  
More than this, tell me there's more to this
