

## Talk Of The Town

Dasha

Well I heard it from your momma and you heard it from mine  
They were talking 'bout us in the grocery line  
Give them stuck up no ones something new to say  
Well he said she said it was only time  
'Til one of us went and crossed that line  
Weekend secret splashed across the page  
Mh, ooh-ooh-oh, guess it's our big debut

Let's give them something to talk about  
Baby, we're the talk of the town  
Let's give them shit to go on about  
Baby, they're all talking now  
'Cause the smallest towns have the biggest mouths and this one  
sure gets loud  
Would you look at me now, would you look at me now  
Baby, we're the talk of the town

Had too much Coors Light, fourth of July  
Thought everyone was staring at the sparks in the sky  
Not the ones you made with your breath across my face  
Used to make me cry when I was ten, 'cause I was just your sister's friend  
We wrote our names in wet concrete at your place  
Mh, ooh-ooh-oh, look at us breaking news

Let's give them something to talk about  
Baby, we're the talk of the town  
Let's give them shit to go on about  
Baby, they're all talking now  
'Cause the smallest towns have the biggest mouths and this one  
sure gets loud  
Would you look at me now, would you look at me now  
Baby, we're the talk of the town, the town

'Cause everybody knows and everybody knows  
Then everybody knows about us  
Yeah, everybody knows and everybody knows  
Yeah everybody knows about us

'Cause the smallest towns have the biggest mouths and this one  
sure gets loud  
Would you look at me now, would you look at me now  
Baby, we're the talk of the town  
Yeah baby, we're the talk of the town
