

TALK

Dasha

Imma give you some distance
Think you changed your mind
Unavailable lately
So much harder to find

Imma trip these emotions
Slip from under your thumb
Throw my phone in the ocean
Couldn't call if you want

For a couple of days
I might go M.I.A
Maybe mess with your brain
Oh no

Kinda crazy how fast
You won't know how to act
Watch you want me right back
Oh no

So if you wanna talk
Imma cut you off
Then imma leave it up to you up to you
I know you'll find a way if you want to

If you wanna talk
Imma cut you off
Then imma have you on your knees, beg for me
Missing me, make sure that it don't stop
If you wanna talk
Oh no
Yeah, if you wanna talk

It's a little unhealthy
Well at least I'm aware
Just solving a problem
Making sure that you care

For a couple of days
I might go M.I.A
Maybe mess with your brain
Oh no

Kinda crazy how fast
You won't know how to act
Watch you want me right back
Oh no

So if you wanna talk
Imma cut you off
Then imma leave it up to you up to you
I know you'll find a way if you want to

If you wanna talk
Imma cut you off
Then imma have you on your knees, beg for me
Missing me, make sure that it don't stop

If you wanna talk
Oh no
Yeah, if you wanna talk
If you wanna talk

Hey Dash...
I don't know what's up but
I haven't heard from you in a couple of days
Just wanted to check in

For a couple of days
I might go M.I.A
Maybe mess with your brain
Oh no

Just call me back

So if you wanna talk
Imma cut you off
Then imma leave it up to you up to you
I know you'll find a way if you want to

If you wanna talk
Imma cut you off
Then imma have you on your knees, beg for me
Missing me, make sure that it don't stop
If you wanna talk
Oh no
Yeah, if you wanna talk
