

You Said

Dasha

God you could've told me bullshit
Told me that the earth was flat
And looking back I'm sure you did

But every word you said was gospel
I was blinded like a child and
Would've died for all your sins

Stuck in this cycle like you were my bible
But finally I had to break
If you told me to jump I would ask you from what
I believed you cause that made you stay

You said
That we'd last forever
You said
But now we're not together
If I didn't know better
And you said hold your breath I
Would do it and probably be dead
All cause you said

I'm not sure like should I laugh
Or should I cry or feel defeated
For believing all your shit

All I know if another man tries to control the way you did
I swear to God someone bail me out of jail
Tomorrow when you can

Stuck in this cycle but you're not my bible
But finally I lost my faith
If you told me to jump I would ask you from what
I believed you cause that made you stay

You said
That we'd last forever
You said
But now we're not together
If I didn't know better
And you said hold your breath I
Would do it and probably be dead

The worst part of it honey
Is you never loved me
And I'd probaby do it again

All cause you said
All cause you said
All cause you said
