

About Us

Dashboard Confessional

I waited to make the call
Longer than most would
Longer than most
Just to be safe

Few words to say it all
Fewer than most would
Fewer than most
There's nothing to say

So I thought about staying home
I thought about laying low
But there's no use hiding away

Now I wanna hold you a little bit tighter
Burn like a lighter
Light a fire up
About us
I'm always gonna be about us

Chasing you like nothing else matters
Only getting faster
And I'm never giving up on us
I'm always gonna be about us

Think of the mess we made
As I walked to the corner
I walked to the corner of 7th and Main

I've seen all the serenades
I try to find order
I try to find order in all of this change

And I think about who we are
I think of how very far I'll go
When there's so much to save

Now I wanna hold you a little bit tighter
Burn like a lighter
Light a fire up
About us
I'm always gonna be about us

Chasing you like nothing else matters
Only getting faster
And I'm never giving up on us
I'm always gonna be about us
About us
About us

I'd be lost without you here with me
Don't make it harder than it has to be

Find me a war, I'll fight it if that's what you need
So darling don't hide from me

Now I wanna hold you a little bit tighter

Burn like a lighter
Light a fire up
About us
I'm always gonna be about us

Chasing you like nothing else matters
Only getting faster
And I'm never giving up on us
I'm always gonna be about us

About us
I'm always gonna be about us
About us
I'm always gonna be about us

About us
About us
