

# Magic

DAT ADAM

Magic!

Baby, I'm not a magician  
But maybe I'll fulfill your wishes  
All you need to do  
Is being—

Baby, I'm not a magician (magic)  
But maybe I'll fulfill your wishes (with magic)  
All you need to do (do)  
Is bein' you (bein' you)  
Baby, I'm not a magician (magic)  
But I may know a way out of prison (with magic)  
And all we need to do (do)  
Is keep bein' true (bein' true)

Ich weiß, dass du es kannst  
Baby, reich mir deine Hand  
Ich trag' dich nicht ins Ziel  
Doch ich zeige dir, wo lang  
Es ist längst noch nicht zu spät  
Selbst wenn die Erde untergeht  
Denn was ist schon ein Sturm  
Wenn der Wind dich trägt

I was one of those who think that  
They figured everything out but I didn't  
And then later I found out I was trippin' over stokes in my wheels  
That I put there by myself, I have broken my shields  
But I saw it when I fell and now I know

I evaluated data  
I won't break through all the layers  
'Cause you all fall out already  
If you don't believe in magic

Baby, I'm not a magician (magic)  
But maybe I'll fulfill your wishes (with magic)  
All you need to do (do)  
Is bein' you (bein' you)  
Baby, I'm not a magician (magic)  
But I may know a way out of prison (with magic)  
And all we need to do (do)  
Is keep bein' true

All we need to do, all we need to do  
All we need to do, all we need to do (yeah)  
All we need to do, all we need to do (is keep bein' true)  
All we need to do, all we need to do  
All we need to do, all we need to do  
All we need to do, all we need to do (bein' true)  
All we need to do, all we need to do  
All we need to do, all we need to do (magic)  
All we need to do, all we need to do (baby, I'm not a magician)  
All we need to do, all we need to do  
All we need to do, all we need to do (but maybe I'll fulfill your wishes)  
All we need to do, all we need to do  
All we need to do, all we need to do (all you need to do)

All we need to do, all we need to do  
All we need to do, all we need to do (is bein' you)  
All we need to do, all we need to do

Baby, I'm not a magician  
But I may know a way out of prison  
And all we need to do  
Is keep bein' true
