

Don't Sing

Data

People get up
Take the floor
Light it up, that's what it's for
We are the Legion, the Semper Fi
We are the Legion, the state of mind
People rise up to the task
Don't forget what you love best
We had to be on the rise
Wake up to the sound of drums

Don't sing about love
Think about the rhythm
Sing about war

People rise up
Take control

Revolution
Will bring the light
Just a matter of fighting the fight
People stand up
Make them last
Never forget what you love best
We like to be, on the run
Wake up to the sound of drums
