

With You

Data

You got me singing
You keep me waiting
You even got me lose my mind
They call you honey
You got me crazy
I think about you all the time

Don't be afraid of me
I'm more than what you see
I want to put a ring on it
There are no gentlemen
Let me come as I am
A player in your game

Let me make that move to you
Nobody's looking at us, I'm gonna make you fly to the moon
We're made to be together
Tell me what's the matter with you!

Why would you tease me?
Why don't you call me?
Girl, you know I can't stand to wait
Oh, you could free
All your fantasies, yeah
Baby, let me accelerate!

I saw it in your eyes
They never tell no lies
We don't have to be wise tonight!
There are no gentlemen
Let me come as I am
A player in your game!

Let me make that move to you
Nobody's looking at us, I'm gonna make you fly to the moon
We're made to be together
Tell me what's the matter with you

You, you, you, you
You, you, you, you
What's the matter with you?
You, you, you, you
Nobody does it better, tell me what's the matter with you!

(You, you, you, you
You, you, you, you
You, you, you, you
With you?
You, you, you, you
You, you, you, you
You, you, you, you
What's the matter with you?
You, you, you, you
You, you, you, you
You, you, you, you
With you?
You, you, you, you

You, you, you, you
You, you, you, you...)

Let me make that move to you
Nobody's looking at us, I'm gonna make you fly to the moon
We're made to be together
Tell me what's the matter with you

You, you, you, you
You, you, you, you
What's the matter with you?
You, you, you, you
Nobody does it better, tell me what's the matter with you!

(You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you
What's the matter with you?
You, you, you, you
You, you, you, you
Tell me baby
You, you, you, you
What's the matter with you?...)
