

ARTIFICIAL

Daughtry

Artificial

No blood in the veins
Built to feel without the pain
Circuits for the brain
Wide awake
A vision of perfection, no lies
Just bitter resurrection, disguise
Just another lethal injection
To mankind

Welcome to your worst nightmare
The days are getting dark, you should be scared
It doesn't have a heart
Plug into the new you, don't resist
'Cause it's no use, it's no use
It's digital warfare
The death of who we are is right here
It's never gonna stop
Plug into your new soul, ice cold
Mechanical, artificial

No love, no embrace
Something's wrong and outta place
A soulless masquerade
A disgrace
No sickness, no dying, no disease
No begging for mercy, on your knees
No god, no religion
No beliefs
