

# Back In Time

Daughtry

Whoa, whoa, going back in time  
Whoa, whoa, going back in time

You knew how to start a fire, didn't need gasoline  
Never took no time at all to get me on my knees  
The fruit just seemed to fall, never had to shake no tree  
The door was always open and we didn't need a key

Whoa, whoa

Take me back to those days of gold  
We were young and said we'd never get old  
No oh, no oh  
Take me back to just me and you  
Doing things that Momma said don't do  
No oh, no oh  
Take me back in time, take me back in time

Didn't matter where or when, everything's anything goes  
And time and time we'd cross the line and watch that bomb explode

Whoa, whoa  
There it goes, there it goes

Take me back to those days of gold  
We were young and said we'd never get old  
No oh, no oh  
Take me back to just me and you  
Doing things that Momma said don't do  
No oh, no oh  
Take me back in time, take me back in time  
Take me back in time, take me back in time

Whoa, whoa, going back in time  
Whoa, whoa, going back in time

Take me back to those days of gold  
We were young and said we'd never get old  
No oh, no oh  
Take me back to just me and you  
Doing things that Momma said don't do  
No oh, no oh  
Take me back in time, take me back in time  
Take me back in time  
(Take me back to those days of gold  
We were young and said we'd never get old)  
Take me back in time  
Take me back in time  
(Take me back to just me and you  
Doing things that Momma said don't do)  
Take me back in time

Whoa, whoa, going back in time
