

# Deep End

Daughtry

I'm under water  
And I'm on fire  
There's nothing wilder than my heart  
Just let the current  
Set it in motion  
Then nothing can keep us apart

We're all swimming into the light  
I want you by my side  
And I'm right here waiting for you  
Right here waiting for you  
We're all living on borrowed time  
I've been holding my breath all night  
Waiting for you

I'm diving into the deep end  
And I'm not scared  
I'm not scared  
And I'm in way over my head  
And I'm not scared  
I'm not scared, no

I am an island  
You are an ocean  
I wanna float here in your arms  
High as a mountain  
Deep in devotion  
There's nothing wilder than your heart

We're all swimming into the light  
I want you by my side  
And I'm right here waiting for you  
Right here waiting for you  
We're all living on borrowed time  
I've been holding my breath all night  
Waiting for you

And now I'm diving into the deep end  
And I'm not scared  
I'm not scared  
And I'm in way over my head  
And I'm not scared  
I'm not scared, no

I'll follow you straight to the bottom  
I'm not afraid hell or high water  
I wanna dive into you  
I'll follow you straight to the bottom  
I'm not afraid hell or high water  
I wanna dive into you

I'm under water  
And I'm on fire

And now I'm diving into the deep end  
And I'm not scared  
I'm not scared

And I'm in way over my head

And I'm not scared

I'm not scared, no

I'll follow you straight to the bottom

I'm not afraid hell or high water

I wanna dive into you

I'll follow you straight to the bottom

I'm not afraid hell or high water

I wanna dive into you
