

Divided

Daughtry

Embraced in the shadows
We'll bleed into one
We are the seeds falling from the sides
We sharpen our arrows
Aim for the sun
A dying breed
We're living to evolve

It's always be us against the world
We're numbing from the start
We won't be torn apart
Won't be divided
Up against the world
We'll rise up for ourselves
So let 'em try like hell
We won't be divided

Embraced for the glory
And kill for the throne
They're out for blood
Out for flesh and bone
They build up their castles in pounds of sand
The kings and queens stand hand-in-hand

It's always be us against the world
We're numbing from the start
We won't be torn apart
Won't be divided
Up against the world
We'll rise up for ourselves
So let 'em try like hell
We won't be divided

Embraced in the shadows
We bleed into one (Bleed into one)
Embraced in the shadows
We bleed into one

It's always be us against the world (Us against the world)
We're numbing from the start
We won't be torn apart (Ooh)
Won't be divided (Divided)
Up against the world (Up against the world)
We'll rise up for ourselves (Ooh)
So let 'em try like hell
We won't be divided

We won't be divided
Oh, we won't be divided
