

# Drown In You

Daughtry

There's a place where you can light the fire and watch it burn  
Lay it down and lose it all  
It's taken me so far beyond the point of no return  
Gave all that I had  
When hope is gone  
(Hope is gone)

Is this real?  
Or is it just another crazy dream?  
Someday soon will fade away  
Feels just like I'm under water and can barely breathe  
Dying in the bed that I have made

I don't wanna drown in you  
I'm sinking, then I'm torn in two  
So when you see me come up for air  
Don't try to hold me down, just save me now  
Don't let me drown in you  
(Don't let me drown in you)

City pulls me in closer than I've ever been  
There ain't no way I can escape  
Without a doubt you know that I would tread the deepest end  
Thousand years forever in a day  
But I don't wanna drown in you  
I'm sinking, then I'm torn in two  
So when you see me come up for air  
Don't try to hold me down, just save me now  
(Just save me now)  
Don't let me drown in you

Did I bring this to myself?  
Can I get out alive?  
Yeah, I've given you the best of me  
Now you want the rest of me  
What's it gonna take to survive?  
Yeah!

There's a place where you can light the fire and watch it burn

I don't wanna drown in you  
(Drown in you)  
I'm sinking, then I'm starting to  
(I'm starting to)  
So when you see me, come up the river  
Don't try to hold me down, just save me now  
(Just save me now)  
Don't let me drown in you  
Don't let me drown in you  
(Drown in you)  
(Just save me now)  
(Don't let me drown in you)  
(Drown in you)
