

Life After You

Daughtry

Dmi **B**
I'm ten miles from town, and I just broke down

F **C**
Spitting out smoke on the side of the road

Dmi **B**
I'm out here alone, just trying to get home

F **C**
To tell you I was wrong, but you already know

G **B**
Believe I won't stop for nothin'

G **B** **C**
To see you so I've started runnin'

B **F**
All that I'm after

C **Dmi**
Is a life full of laughter

B **F** **C**
As long as I'm laughing with you

B **F** **C** **Dmi**
And I think that all that still matters is the love and the laughter

B **C** **Dmi**
After the life we've been through

B **C** **Dmi**
'Cause I know there's no life after you

Dmi **B**
The last time we talked, the night that I walked

F **C**
Burns like a light in the back of my mind

Dmi **B** **F**
I must've been high, to say you and I

C
weren't meant to be an' just wasting my time

G **B**
Oh, why did I ever doubt you

G **B** **C**
You know, I will die here without you

B **F**
All that I'm after

C **Dmi**
Is a life full of laughter

B **F** **C**
As long as I'm laughing with you

B **F** **C** **Dmi**
And I think that all that still matters is the love and the laughter

B **C** **Dmi**
After the life we've been through

B **C** **Dmi**
'Cause I know there's no life after you

Dmi **B**
You and I, right or wrong, there's no other one

F **C**

After this time spent on
