

# White Flag

Daughtry

I lost my words lingering in the dark  
Hard times, don't you know we've seen them all  
Ain't one to preach  
Ain't one to speak on what I don't know  
I lay that burden down  
With one hand, we're reaching for the sky  
And one hand, holding on for life  
I won't raise my, I won't raise my white flag  
In this life

The moment I surrender, bury me in the ground  
I'd die before you see me take a bow  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't surrender, praise the Lord my soul to take  
Thank God I live to die another day  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't raise my white flag  
'Till I'm through

I found my way following a trail of hurt  
'Cause my name ain't no stranger to the dirt  
It's been dragged around, it's been kicked around  
They left it lyin' there for dead, whoa  
But I defy before I lose the right  
And take the time to watch the river rise  
I won't raise my, I won't raise my white flag  
In this life

The moment I surrender, bury me in the ground  
I'd die before you see me take a bow  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't surrender, praise the Lord my soul to take  
Thank God I live to die another day  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't raise my white flag  
'Till I'm through

I won't raise my, I won't raise my  
I won't raise my white flag until I'm through  
Until I'm through  
Yeah

The moment I surrender, bury me in the ground  
I'd die before you see me take a bow  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't surrender, praise the Lord my soul to take  
Thank God I live to die another day  
You know we all got, you know we all got  
You know we all got a lot to lose  
I won't raise my white flag, no  
I won't raise my white flag 'til I'm through

I won't raise my, I won't raise my  
I won't raise my white flag until I'm through

I won't raise my, I won't raise my  
I won't raise my white flag until I'm through
