

Be Without You

Dave Barnes

Flowers for strangers, wait by the door, with
A few you ain't usin', in case they want more
Somethin' about it summed you up well
Stories of kindness that you'll never tell

And you've always been the same
And you're never gon' change

You're my heartbeat, everything
Better than I could dream
What would I do, what would I do?
I don't wanna be without you
You don't wanna say goodbye
You're the ever-after kind
What would I do, what would I do?
I don't wanna be without you

(Without you, without you)
I don't wanna be without you
(Without you, without you)

Girl, I'm still learnin' pieces of you
All this little encores that I never knew
Somethin' about you fits me so well
You know the secrets I just can't tell

You've always been the same
And you're never gon' change

You're my heartbeat, everything
Better than I could dream
What would I do, what would I do?
I don't wanna be without you
You don't wanna say goodbye
You're the ever-after kind
What would I do, what would I do?
I don't wanna be without you

(Without you, without you)
I don't wanna be without you
(Without you, without you)

Oh, I'm tryin'
Yeah, I'm dyin'
To be what you deserve
To show you
So you know, too
How much you're worth
Hey, yeah, yeah, yeah-yeah

You're my heartbeat, everything
Better than I could dream
What would I do, what would I do?
I don't wanna be without you
You don't wanna say goodbye
You're the ever-after kind
What would I do, what would I do?

I don't wanna be without you

(Without you, without you)

I don't wanna be without you

(Without you, without you)

I don't wanna be without you

(Without you, without you)

I don't wanna be without you
