

# Everything but Mine

Dave Barnes

Under bright lights she's a rock and roller  
Under wild skies she's a roller coaster  
She's the moonlight the second after midnight  
Driving me wild

Under bad vibes she's a catch you later  
On a back road brother she's a troublemaker  
She's the right song keep the party going on every mile

I can't hold back, hold back any longer  
Shes the lightning stirring up my thunder  
It's a long shot, but Lord, I gotta try  
She's everything  
She's everything but mine

She's a high heel heartbreak on a mission  
I can tell there's one thing she's still missing  
Wanting one more out there on the dance floor all alone

Another look says move a little closer  
Another spin and I'll be winning her over

I can't hold back, hold back any longer  
Shes the lightning stirring up my thunder  
It's a long shot, but Lord, I gotta try  
She's everything  
She's everything but mine

She's got her red lips rocking  
She's got the world on her string  
She's got all that something  
Yeah, she got everything but me

I can't hold back, hold back any longer  
Shes the lightning stirring up my thunder  
It's a long shot, but Lord, I gotta try  
She's everything  
She's everything  
I can't hold back, hold back any longer  
Shes the lightning stirring up my thunder  
It's a long shot, but Lord, I gotta try  
She's everything  
She's everything but mine...

Under bright lights she's a rock and roller  
Under wild skies she's a roller coaster  
She's the moonlight the second after midnight  
Driving me wild
