

# Lights Out

Dave Barnes

It ain't the way your kiss could start a fire  
It's not the spark that's always in your eyes  
It would take a lifetime just trying to describe it  
That thing about you, girl, I don't know why

Words get all twisted  
Gone missing  
At least till now  
But somehow

I can see you with the lights out  
I can hear you with the sound down  
This might sound a little crazy  
But I can draw you from memory  
Every thought that you're thinking  
Every feeling, I feel it somehow  
Some things you just know without a doubt  
I can see you with the lights out

Yeah, every day is just another mystery  
Full of, "Never knows", "What if's", and best laid plans  
Lying in the darkness like this, baby  
You're the one thing I know I understand

I can see you with the lights out  
I can hear you with the sound down  
This might sound a little crazy  
But I can draw you from memory  
Every thought that you're thinking  
Every feeling, I feel it somehow  
Some things you just know without a doubt  
I can see you with the lights out

Words get all twisted  
Gone missing  
At least till now  
Think I know how to say it without a doubt  
Without a doubt

I can see you with the lights out  
(I can see you, I can see you  
I can see you with the lights out, lights out)  
Light (I can see you, I can see you  
I can see you with the lights out, lights out)

I can see you with the lights out  
(This might sound a little crazy)  
(But I can draw you from memory)  
Every thought that you're thinking  
Every feeling, I feel it somehow  
Some things you just know without a doubt  
I can see you with the lights out  
With the lights out  
(This might sound a little crazy, but I can draw you from memory)  
Every thought that you're thinking  
Every feeling, I feel it somehow  
(I can see you with the lights out)

Some things you just know without a doubt

I can see you with the lights out
