

Wildfire Heart

Dave Barnes

I used to think that I was broken
Love was long, long gone
Sitting in the car late at night listening to sad, sad songs
I was waiting for someone
To strike a match inside of me
It's so hard to make it with half of what you need

But you've got me thinking
You've got me feeling alright
I've been living with this wildfire heart
Without a spark to make it light
So would you be mine?
You could be mine

I ain't one for proclamations
There never go quite like they should
But I think that I love you and I know that that's good

Cause you've got me thinking
And you've got me feeling alright
I've been living with this wildfire heart
Without a spark to make it light
So would you be mine?
You could be mine

There ain't nothing like the feeling
Of two hearts catching fire

You've got me thinking
You've got me feeling alright
I've been living with this wildfire heart
Without a spark to make it light
You've got me thinking
You've got me feeling alright
I've been living with this wildfire heart
Without a spark to make it light
So would you be mine?
You could be mine
So would you be mine?
You could be mine
