

## Blacked Out

Dave Days

Friday night, it's gonna be a good one, yeah right  
started off slow, threw a couple shots back now I'm out of control  
running around town, buy another glass and pour another round  
kill the six pack, store your jack, before I knew it I was blacked... out

What happened last night, I don't know  
Woke up in a bathroom and I can't find my clothes  
Try to put it together why you called me a dick  
but I can't remember anything that I did  
cause I was blacked out [x2]

Then you rolled up, just like a movie, and I'm in love  
I know that I shouldn't, but you look so good girl I just couldn't  
stop myself, kiss you right there on the mouth  
Did I just do that? I need a recap, wish I remembered but I was  
blacked out

What happened last night, I don't know  
Woke up in a jail cell and I can't find my phone  
Try to put it together why my girlfriend is pissed  
but I can't remember anything that I did  
cause I was blacked out (I can't remember) [x2]

I didn't mean to say those things I said (things I said)  
Had one to many, lost control of it, now I'm so sorry  
Though you'll remember, but can you forget  
It's nights like these I'll never drink again

What happened last night, I'll never know  
Stayed up till the morning and lost total control (She did What !?)  
Try to put it together but there's too much I missed  
Now I gotta live with all this dumb shit I did  
When I was blacked out (I can't remember)  
Cause I was blacked out (I can't remember) [x3]  
(Cause I was)
