Summertime

Dave Days

Wake up around 4pm imma stay out till the late AM
Won't let a day go by without you passed out by my side
I've been building up time to let it out
Let's do all the things that we talked about
Cause these days won't last forever like moments in the past
So let's make this one last

In the summertime imma sleep all day
In the summertime and stay out all night
We got time to waste so let's make this one right
In the summertime let's drive to the beach
In the summertime and run around the streets
Looking up at the stars as they shine down on me

There's no where that we can't go
Imma call up a girl that I used to know
Let's go out baby we can't talk about
Anything you want to want to you're making me want you
But I'm not trying to fall in love
But it feels right with the stars above
The summer days are almost done but the night has just begun
We're young and on the run

In the summertime imma sleep all day
In the summertime and stay out all night
We got time to waste so let's make this one right
In the summertime let's drive to the beach
In the summertime and run around the streets
Looking up at the stars as they shine down on me /x2
