

Wasted on You

Dave Days

Your kiss got me wasted on you again
Love your taste now I'm breaking my cleanse
I can't take it I need you again
I'm wasted got me wasted on you

Once upon a night with you I'll never forget
I smell like your perfume and my crush cigarettes
You're so bad for me but I'd die for you happily
Drunk off the words that you said and now I'm

Back on that road in circles we go
Just when I thought I'd quit
I should say no but you've got a hold on me
It only takes one sip

Your kiss got me wasted on you again
Love your taste now I'm breaking my cleanse
I can't take it I need you again
I'm wasted got me wasted on you

Lipstick on my pillowcase from your kiss of death
Somehow I survived but you're stuck on my breath
And I can taste it Yves Saint Laurent makes me sick
I need you now that you left cause now

Back on that road in circles we go
Just when I thought I'd quit
I should say no but you've got a hold on me
It only takes one sip

Your kiss got me wasted on you again
Love your taste now I'm breaking my cleanse
I can't take it I need you again
I'm wasted got me wasted on you

Wasted on you

Your kiss got me wasted on you again
Love your taste now I'm breaking my cleanse
I can't take it I need you again

Your kiss got me wasted on you again
Love your taste now I'm breaking my cleanse
I can't take it I need you again
I'm wasted got me wasted on you

Wasted on you
On you again
Wasted on you
