

Be Set Free

Dave Dobbyn

I muddied up the river
Panning for gold and dreams
You and I walking steady
Right across the hot sand dunes
I chose I'm a soul in chaos

Where everyone's house is burning
You describe a line to everything
Damned if you don't believe it
You made yours a line right to me
And nobody's house is burning now

And there you go
Never want to capture you
And yeah
You know
There's a light that lets you know
You will be set free
You will be set free

I studied up the poets
Just to hold a mirror to you
Soaking up the myths and legends
Just to mine the gifts within them
I'm the one who leaves the castle
Than battle with the demons in it
You describe a line to everything
Damned if you don't believe it
You throw open doors and windows
Arrival as a state of heart

And yeah
You know
Never want to capture you
And yeah
You go
There's a light that lets you know

You will be set free
You will be set free
We will be set free
We will be set free

I muddied up the river didn't I?
Panning for gold and dreams
You and I walking steady
Right across the hot sand dunes
You chose I'm a soul in chaos
Everyone's house is burning
You throw open doors and windows
Arrival as a state of heart

And yeah
You know
Never want to capture you
You will be set free
You will be set free

We will be set free
We will be set free

Yeah
