

Belltower

Dave Dobbyn

Let's build a bell tower here babe
Watch the grass around it grow
Build a big bell tower here now
Shelter from the sun in its sharp shadow
Build it along classic lines

Somewhere secluded like here, right here
By these trees and this flowing river
Never let it chime never let it toll
Rain falls to trickle trickle turns to flow

Shine and blow don't water still flow
Beneath this ice and driven snow
And people say they can tell
There's no crack in this bell
I know I'll never let it toll
Cos I'm ringing out I'm ringing for you
Only the tower knows

Shine and blow don't water still flow
Beneath this ice and driven snow
And people say they can tell
There's no crack in this bell
I know I'll never let it toll
Cos I'm ringing out I'm ringing for you
Only the tower knows

Never let them know how you feel
It's just the seasons that are real
Let's build a bell tower here baby
Let's build a bell tower here
Right here
