Keep a Light On

Dave Dobbyn

I have to be free I thought if I stood back
And savoured the light surrounding you
To cut to the quick I wasn't so sure how
I have to go deeper under you
And I've been godless to find you
In your house
In your home
My melody waits and it's within your heart
It's taken so long to find the chart
No guardian angel I fired him way back
The journey's the thing
And it finds me here
In the shadows beyond you

Keep a light on keep a light on
Keep a light on keep a light on promise me
You can keep a light on keep a light on
Cause I want you and you need me
In your house
In your home
I'm fallen from grace but it don't mean anything
When memory waits underground
While the enemy sleeps
Just within the mood swing
And if I should stray believe me now

Cause all I got to say
Keep a light on keep a light on
Keep a light on keep a light on promise me
You can keep a light on keep a light on
Cause I want you and you need me
Keep a light on
Keep a light on keep a light on promise me
You can keep a light on keep a light on
Cause I want you and you need me
In your house
In your home

Keep a light on for me
Keep a light on for me
You can keep a light on for me
You can keep a light on for me
