

All I Want For Christmas Is You For Me

Dave Dudley

You don't have to worry about a list
I said as I gave my wife a kiss
'Cause what I want won't take much room under our Christmas tree
All I want for Christmas is you for me

Your magical smile is like a Christmas snow
An Angel's touch that always seems to glow
Brighter than those tree of lights on a Christmas tree
And all I want for Christmas is you for me

All I want for Christmas is you here by my side
'Cause lovin' you is all it takes to fill me up with pride

So you don't have to worry about a list
I said as I gave my wife a kiss
'Cause all I want won't take much room under our Christmas tree
All I want for Christmas is you for me

All I want for Christmas is you here by my side
'Cause lovin' you is all it takes to fill me up with pride

So you don't have to worry about a list
I said as I gave my wife a kiss
'Cause all I want won't take much room under our Christmas tree
All I want for Christmas is you for me
