Living proof  
Barbara I miss you  
Your whole vibe  
How you smile  
Damn

My childhood was the illest, it makes me think of Barbara  
I touched a couple million, I couldn't give this shit to Barbara  
I watched my pops cry for real, when it came to Barbara  
Like way before I had a deal, I used to chill with Barbara  
My phone the only way we talk, so don't forget your charger  
I know it's food and good vibes when I get with Barbara  
Apartment 6E, remember, I would sit with Barbara  
She ain't like me in the bridge when I would spend  
Cowboy, rest in peace, he used to chill with Barbara  
Still I wake up out my sleep, wish I was still with Barbara  
Dead broke, feel like we could make a meal tomorrow  
She kept the hope around so nobody could feel the sorrow  
Had us in housing, you know you either steal or borrow  
Pharmacy trips, I hope I get these pills tomorrow  
Had us in housing, you know you either steal or borrow  
Pharmacy trips, I hope I get these  
Classical music, all you heard in the spot  
Told me always watch my body when I walk through the block  
Brian died, you caught my pops and had my stomach in knots  
Kitchen small, could still smell it when you covered the pots  
Barbara, Pooch loved you, all the customers watched  
Niggas drinking on the benches, had a love for your bop  
My favorite auntie, you ain't never want me holding no Glock  
Playing ball then, you told me take it straight to the top  
When you died it broke my heart, you'll never know how I popped  
I hear your voice over this sample niggas know how I rock  
Barbara, I think of you every time I get in my feelings  
Was in and out your building, eventually made a killing

Barbara  
Damn Barbara, I miss you  
Damn Barbara, I miss you  
Damn Barbara, I, I miss you  
Damn Barbara, I miss you  
Damn Barbara, I

2008 is when you left me, after that I went to jail  
Certain rooms that I walk in I still could think of your smell  
Aunt Barbara, my pop sister, you know I miss you  
I never thought your wake would be the last time I kiss you  
Your funeral cracked my head like a dice game  
Shit got darker after you left, and made the light change  
You deserve a white Range, crib out in White Plains  
Kairi and Casey hugging your light frame  
Everything is artificial since you got your wings  
You made sauce for your brother, I just got some wings  
I'm living proof you still can get it, you ain't got a thing  
I still keep the 30's first like it's Halloween  
They hit cousin with an arm and I ain't rock or sling  
They love to say a nigga switched up when he got some green  
I miss my auntie just thinking about her, I gotta breathe

I miss my auntie just thinking about her, I'd probably leave

Barbara

Damn Barbara, I miss you  
Damn Barbara, I miss you  
Damn Barbara, I, I miss you  
Damn Barbara, I miss you  
Damn Barbara, I

Aunt B, taught me a lot

Thank you

I love you

Forever
