Dope Boy

Dave East

How many times do I gotta prove
I'm one of them guys that will never lose
Look in the sky and you see how we move
I done got tired of teaching the school
Retired from thinkin you thinkin the same way I'm thinkin
The fuck was I drinking
I built a tunnel in back of the crib that go straight to a safe
And as long as the link in
Fuck is you thinkin

Real dope boy all white Nike airs
Or a fresh pair of Bapes
With a smoke in the spot said he lookin for a job
Told him watch for them people
I can't put the crib in my name cause
Everything in that bitch illegal
It's scales, it's baggies, titties is out
And plus it's a few desert eagles

We threw the money up
Went from a G-Shock to a Patek I'm comin up
Think of them nights all I ate was a honey bun
It was so dark but I knew that the sun would come
Nobody like me I'm one of one
Your dog keep barking we might have to muzzle him
If I don't leave with him
Then I did not come with him
Check out the scoreboard look like we won again
I'm at the garden sittin so close to the game I might just talk to D Rose
Stick out my foot
I might just trip up the ref
You on the net talkin about goals
I been through the fire
I had to take off my socks and step over coal to sit in this Rolls
Some niggas came in and they workin
Some of them just slow that means that sometimes it's some calm
We knockin these bitches down
See we that in the game then niggas is out of bounds
Heavy tip when we riding round
I ain't have it before but they see that I got it now
Helicopters get bodies found
You can't swim in that water you probably drown
It ain't no more posting in lobbies now
Because we pull up in Maseratis now

Real dope boy all white Nike airs
Or a fresh pair of Bapes
With a smoke in the spot said he lookin for a job
Told him watch for them people
I can't put the crib in my name cause
Everything in that bitch illegal
It's scales, it's baggies, titties is out
And plus it's a few desert eagles
We knockin these bitches down
See we that in the game then niggas is out of bounds
Heavy tip when we riding round
I ain't have it before but they see that I got it now

Helicopters get bodies found
You can't swim in that water you probably drown
It ain't no more posting in lobbies now
Because we pull up in Maseratis now

Or we might pull up in them Maybachs
Wife beater with a big splif rolled
Six braids got them straight back
Takin Diddy shots bitch take that
I played the kitchen like Ajax
Brought a new bench he like 8 racks
Local short me through that's straight facts
Caught without so I ride with a face mask yea

Real dope boy all white Nike airs and a brand new pistol
Smoke in the spot lookin out
I told him he should look out through the window
He don't want nothing but base
I be you that change up the tempo
I got a FN with a red beam
That bitch came with a menstrual
You can't erase nothing I did
Cause I ain't write this with no pencil
Niggas play tough until they really get identified by they dental
Woke up in a cold sweat
One hundred pies in the rental
Nervous like the first day of school
Worst come to worst play it cool
Already did the worst we could do

Real dope boy all white Nike airs
Or a fresh pair of Bapes
With a smoke in the spot said he lookin for a job
Told him watch for them people
I can't put the crib in my name cause
Everything in that bitch illegal
It's scales, it's baggies, titties is out
And plus it's a few desert eagles
