

# I Got 5 On It

Dave East

It's traffic on the west, we taking Riverside  
We ain't have too much, we had to improvise  
When my homie died I watched every one of my niggas cry  
Hard to believe you, knowin' you live a lie  
Still got love for enterprise  
Rental after rental  
Smokin, lookin' for an instrumental  
Dope in the hotel, fuck incidentals  
Make sure you finish, niggas 'll end you  
These rappers is way too sentimental  
Spend days tryin' to get witchu  
Watchin' Caine and O-Dog, my shit is classical like Mozart  
Bookbag Goyard  
In traffic getting a blowjob  
All I knew is go hard  
I've been waiting for so long  
I told Shooter to hold on  
How the fuck did it go wrong?  
Night after night  
Argue with niggas, fight after fight  
Taking flights, we ain't never been that hype in our life  
I was drinking lean  
Sprite after sprite  
Right for the night  
Used to gamble with our life  
We ain't need no dice to get right  
Smokers keep doubling back  
They said they liking our price  
Mayweather back at it  
I'm about catch a flight to the fight  
All your jewelry fake  
Never seen no real ice in your life  
Let the jury hate, the witness 'll never bring it to life  
I got 5 on it, I'ma go 'n get it if my daughter or my mom on it  
Shot him in his drop, steering weel, they left his mind on it  
Back against the wall, I put my spine on it  
That deal not official, you better not sign on it  
Bring it to your adres, just like I work for Tom Warner  
Studying the hustlers perform, he got 9 corners  
Judge set up bail, but nobody had a bond for him  
On the phone with his mom, nobody had a dime for him  
Alexander McQueen's at the cookout  
I brought my youngin' with me just to look out  
Watch the bitches you fuck, they puttin' books out  
He coulda went to college, decided to take the crook route  
Cheffin' in the projects, he telling people he cook now  
It's hard to trust the pastor, he countin' up what the church made  
Champagne occasions, treat every day like my birthday  
I hate this year, I really went through it in the worst way  
30K for a feature, I blew it on the first day  
I thought my nigga would make it, I ain't care what the nurse say  
We came up from the bottom, I'm really rare with the wordplay  
Prada is what his shirt say  
These niggas acting nervous like they first date  
'Lotta good in my family, I'm the first great
