

## Karma (Interlude)

Karma

Sneakin' up behind you like a thief in the night  
Sometimes you can't put up a fight  
Watchin' what you doin' today  
It might come back to you where ever you lay  
It comes back in many forms  
Knockin' on your door  
Answer to see what's in store  
Keep the darkness out  
Bring the light in  
Karma is what we call it  
It may or may not be afraid  
Your faith can be left in the hands of God or the devil  
Speak life into positive energy  
Pray off negativity  
Practice what you preach  
While your still prayin' for your enemies  
It'll all come back to you  
Directin' your own journey  
Fallin' and gettin' back up again  
Lovin' yourself and others around you  
Your existence is challenged by karma  
Choose wisely
