

Night Shift

Dave East

I'm trapped on the night shift
I seen my uncle addicted to white shit
I pulled up with a nice bitch
My license suspended so that's who I slide with
I'm ready for anything, outside with a Glock, in jail with an ice pick
Just put your money down, nobody make a move 'til the dice set
I got my money up, tellin' promoters I switched up my prices
I brought Dre Mack with me, he gon' run down, he don't care who your wife is
I'm tryna live righteous
Couldn't get bail, they said he was a flight risk
Why these niggas on my dick?
If I see it, I want it, I like it, I buy it

Uh, you need like fifty pills? I could get 'em
I got like nine bitches in the Sprinter
I just got some head, she just wanted dinner
Half my niggas dead, half of 'em in the prison
40 on me, had no business
I ain't got no time to think about the witness
Leave 'em in the river, wakin' up with fishes
I get all my diamonds from the district
I got all my haters at attention
Try pull me over, not stoppin' at lights
If I hop out, I'm jumpin' over fences
Can't f*ck with bitches, they just want attention
My diamonds yellow, I look like a Simpson
Her brain amazin' like she went to Princeton
Her name was Monica, I felt like Clinton

I'm trapped on the night shift
I seen my uncle addicted to white shit
I pulled up with a nice bitch
My license suspended so that's who I slide with
I'm ready for anything, outside with a Glock, in jail with an ice pick
Just put your money down, nobody make a move 'til the dice set
I got my money up, tellin' promoters I switched up my prices
I brought Dre Mack with me, he gon' run down, he don't care who your wife is
I'm tryna live righteous
Couldn't get bail, they said he was a flight risk
Why these niggas on my dick?
If I see it, I want it, I like it, I buy it
