On Sight

Dave East

(Soon as I see you)

And you know I'm gon' need that
On sight (Let's work), on sight (Let's work), on sight (Let's work)
Yeah, I gotta have it
On sight (Talk to me), on sight (Talk to me), on sight (Talk to me)
Said she want it
On sight (Let's work), on sight (Let's work), on sight (Let's work)
I'ma let her have it
On sight (Talk to me), on sight (Let's work), on sight, yeah, yeah

I've been lit the whole night
I got my gun in the club, I don't wan' fight (At all)
JFK in the morning, I got a long flight (Gone)
Shawty a freak, she should be on a porn site
I'ma make this left when niggas be goin' right (Skrrt)
Soon as we leave this spot, she know that it's on sight
I can't even lie, I come from a hard life (Hard)
I always got it cheaper, I ain't payin' y'all price (Nah)
Foreign creep at night, automatic fog lights
f*ck her so good, she can't even walk right (Ah)
All black hoodie on, but it's Off-White (Virgil)
I don't give no money out, I give 'em all pipe
Looking at me funny, now they gon' be alright (Alright)
It ain't Rugs Weekend but I pulled up all white (Right)
Them drugs got you tweaking, we see you, it's on sight (Uh)
I ain't text her back the whole weekend, she wan' fight

And you know I'm gon' need that
On sight (Let's work), on sight (Let's work), on sight (Let's work)
Yeah, I gotta have it
On sight (Talk to me), on sight (Talk to me), on sight (Talk to me)

Said she want it
On sight (Let's work), on sight (Talk to me), on sight (Let's work)
I'ma let her have it
On sight (Let's work), on sight (Let's go), on sight, yeah, yeah

I wonder when I'm gone, do she miss me?
Or do she miss that 1942 or that Henny?
All around the city, they know me for gettin' busy
Patek dancing like Diddy, rolling Cookies to Biggie
Camera lights on me, fresh like it's prom night (Fresh)
Opps in attendance, handle business on sight
I told them I don't get caught up chasing the wrong life
You can't be out here gambling shooting the wrong dice
You can riff all you want to, trip when I come through
Strip when them ones due, I'm just here to f*ck you
I'ma always want you when nobody want you
I'm so hot now, just tryna see what that tongue do
She chose up as soon as I showed up (Chose up)
Neck and wrist already got ice, I don't need no cup
I don't play the bar, on the couch is where we post up
Your wife got some pics on her phone she'll never post up

And you know I'm gon' need that
On sight (Let's work), on sight (Let's work), on sight (Let's work)

Yeah, I gotta have it
On sight (Talk to me), on sight (Talk to me), on sight (Talk to me)
Said she want it
On sight (On sight), on sight (Talk to me), on sight
I'ma let her have it
On sight (On sight), on sight (On sight), on sight, yeah, yeah

Let's work, let's work, let's work
On sight, on sight, talk to me
