

Same Shit

Dave East

Back on that same shit, still with them same niggas I came with
Headshot your homie, you watched his brain flip, then his dome splatter
Knockin' probably, you know I'm the one, your dreams is gon' shatter
It don't matter, chrome heart on my back with a chrome ladder
Uh, we was cookin' chickens up with no batter
Sippin' Hi-Tech like I had no bladder
Elevated, I never thought it'd make the bro madder
Segregated? Never, black or white, just know it's gon' add up

Uh, before you sign up, just know it's rules to this
How they ain't gon' cross me, they put Jesus on the crucifix
I never dick ride, I don't really care about who is rich
You tryna snipe, I'm a sniper, don't really care about who your bitch
My homie keep textin' me about how niggas hatin', label on me
I been in the studio, got niggas waitin'
Little kids say I'm they favorite, change the generation
So if you violate it, we gon' air it out like ventilation
Uh, we gon' air it out like air conditioning
How you talk about jail, knowin' you scared of prison
I thought if you touched a hundred grand, you did it
Tryna stick the ball, but thought my man was blizzard
They at the store, I had to pack in a sandwich

Back on that same shit, still with them same niggas I came with
Headshot your homie, you watched his brain flip, then his dome splatter
Knockin' probably, you know I'm the one, your dreams is gon' shatter
It don't matter, chrome heart on my back with a chrome ladder
Uh, we was cookin' chickens up with no batter
Sippin' Hi-Tech like I had no bladder
Elevated, I never thought it'd make the bro madder
I demonstrated how to make it, now the hoes is at us

I'm in that guest spot, the dog's out, just left the pet shop
I'm dangerous, I'm like asbestos
Left your friend bloody, I'm like DuShane, gotta defend Sully
Look how long I've been in the game, you gotta spend money
I'm in the future, I'm up early, just heard the Rooster
A bad bitch, up in the juice bar, she's Michelin
I gave her two stars, it's business
Call my sister a [?]
I made a few wrong moves, but please don't be too harsh
You know a few things, but you think you're too smart
I'm infamous
I can't explain, I'm like a chemical
I just bat them away, they're like some tennis balls
Got my gun and I'm brave, I'm sippin' rum
I'm on the ray, sometimes I feel like packin' up, I'm runnin' away
These niggas old, they're back in the day, these niggas kids
I had it patterned and I did the bid
Then I came around again and did it big
I'm like a AMG, that's how I got to A&B
Got me on my cest la vie
A locomotive and I stay in steam
She gave me the pussy cause of KMT
Bad and bougie, I'm grabbin' boobies, slappin' booty
Let's just celebrate, life gives you lemons, just make lemonade
My big jacket goose, we picked off your group, my big choppa loose

My big jacket goose, we picked off your group, my big choppa loose
