

# SO MUCH CHANGED

Dave East

They'll never take me alive from where the skinny niggas slide  
Songs with Mary J Blige, seen them die over they pride  
I could never confide in authority, not the kind  
Me and Ro was just building  
That's my ak, but he call me slime  
Had to get out and grind, watch family cross the line  
I could never co-sign your name on that dotted line  
Every time I got bail, mama would tell me be calm  
I was destined to fail, but the Lord allowed me to shine  
We was low in the jects, you've seen what happened, nevermind  
Now they throwing me sex, I'm like a tree they trying to climb  
Niggas knew I was next  
You resemble rats and pigs, a cobra at best  
Send a driver with a wig, go on and chauffeur your death  
Sometimes I get in my feelings, I think no one is left, it feel like everyone  
e gone  
Aunt Barbara told me I was right and everyone wrong  
Back when Chet was in the Navy, Halle Berry was on  
Brian left, I seen my pops cry, dead in his arms  
2008, Barbara left, thought I would never move on  
Life is crazy, memories blurry, some of them clear  
Pops raised me, so did the block  
Nothing I feared, I'm Swayze  
The ghosts of these niggas looking for Demi Moore  
The Henny pour when the brodie died and we did some more  
Death row with designer, died with his Fendi on  
I hate rats, I don't like when my daughter put Mickey on  
  
Um, uh, um, uh, um, uh

They got me mobbing like I'm, low, they ready to get my slug on  
I load my clip and slip my motherfuckin' gloves on  
I ain't scared like the last nigga if they test me  
Trust, niggas never wanna discuss the way they left me  
Thus, I left them motherfuckers while I smash  
While vagina's my mind  
Don't need no problems fast  
Mafioso like the Genovese  
Came up from nothing, niggas never gave me anything  
Don't talk about it, I get mad  
Lord done blessed me with this paper  
Had to be the way I am, it's in my nature  
I know these niggas wanna stop the way I eat  
I'm real, I cannot sleep, and everyday is just a struggle  
Gotta hustle just to breathe, and I've been all alone  
Don't let them tell you  
Devil of failure, you get in touch with a lawyer  
Might can help you raise hell  
A nigga from the gutter, word to mutha  
We rob, police they cuff us, we don't give a fuck  
Still on the scene cause I love the green  
Until they kill me, I be living this life  
I know you feel me  
So much change

Been smashin' on these niggas  
Nigga, that's what we do

Fuck em

So much change  
Um, uh, um, uh, um, uh  
So much change  
Um, uh, um, uh, um, uh  
So much change  
Um, uh, um, uh, um, uh

We keep pushing that line, you know what I'm saying  
So much done changed, things ain't the same  
It ain't like back in the days  
Back in the days we pushed a different line  
We lived by the code. See what I'm saying, man?  
You know, I was telling a little homie the other day  
I was like, man, what do you wanna, what do you wanna do when you grow up, n  
igga?  
He said, I wanna be like you, Kurupt  
I said, you don't wanna be like me, nigga  
Be your own man, stand on your own ten toes  
You dig what I'm saying?
