Weirdos

Dave East

Yeah
Look
Yeah

Started on a mountain bike, switching gears, nigga
That's how long it took me, it took years, nigga
Funerals and wakes, I face my fears, nigga
Just staying far away from all these weird niggas

I was raised to be a soldier, ain't no tears, nigga
Wipe 'em off your face and hit your square, nigga
I told 'em it would happen, I prepared niggas
Let's try to make a million dollars, shit, I dared niggas
I had to wait in line, I ain't have clear, nigga
TSA could smell that East Co. on my beard nigga
Once in a lifetime, I'm such a rare nigga
Come, look at what I seen, I'm tryna share my vision
Come, chill around some niggas that done really lived it
Once you really round some money, you gon' feel that difference
State to state, we really traveled tryna make 'em feel us
The shit we did gon' live forever, they could never kill us

Started on a mountain bike, switching gears, nigga
That's how long it took me, it took years, nigga
Funerals and wakes, I face my fears, nigga
Just staying far away from all these weird niggas

Fuckin' weirdos
Far away from these weird niggas
Something to love, you know
I'm learning
Yeah
We all need it
Love

Started on a dirt bike with the chain loose (Mongoose)
In front of the building with the same troops
Had to go a couple winters with the same boots
The narcs trying to hang us from the same noose
Soon as you bubble, then you run into trouble
So, when they see your money double, they pretend like they love you
I ain't stressing, I ain't worried, my nigga, just fucked up
'Cause lately I been burying niggas, it's tough luck (Word)
Mama send a prayer via text every morning (mama)
Help me read the signs and recognize every warning (love me)
And what do you know, I'm still here, though
Avoiding all the dick teasers, skeezers, and weirdos

Started on a mountain bike, switching gears, nigga
That's how long it took me, it took years, nigga
Took funerals and wakes, I face my fears, nigga
Just staying far away from all these weird niggas

Fuckin' weirdos
Far away from these weird niggas
Something to love
Something to love, you know

I'm learning
Yeah
We all need it
Love

Before the Clicquot popped we was some bare niggas
I know you bleed just like I bleed, why would I fear you niggas?
Lately too much on my mind, so I don't hear niggas (At all)
Bitches never get my time, I know they share you, niggas
Teachers acted like they cared, but I ain't care, nigga
Momma told me life was hard, this shit ain't fair, nigga
In My Lifetime Volume 1, that made me hear Jigga
Pistols like iPhones, now we carry 'em with us
Hop up out some foreign shit, they taking pictures
Run 'em down on foot, I know bout chasing niggas
Niggas dying everyday, can't erase the spiritus
V12 tint on glass, tryna race it, nigga

Look where I took this shit
If you know, you know
If you was around you was around
Something to love

Started on a mountain bike, switching gears, nigga
That's how long it took me, it took years, nigga
Funerals and wakes, I face my fears, nigga
Just staying far way from all these weird niggas

Staying far away from all these weird niggas
Got to
Staying far away from all you, weird niggas
