

Feel So Right

Dave Edmunds

Never though it could happen like this
You have taken away my will to resist
Shiver inside when you hold me tight
It feels so good with you tonight

I didn't believe I had a half that chance
Like something you read in a cheap romance
But we will give him something new to write
It feels so good with you tonight

Oh you make it feel so right
Oh you make it feel so right
Oh you make it feel so right
It feels so good with you tonight

It's all 've ever know 'till now
You Taken the darkness and made it light
It feels so good with you tonight

Oh you make it feel so right
Oh you make it feel so right
Oh you make it feel so right
It feels so good with you tonight

When I think of the days,
I can not be fighting different ways

When I think of the nights,
Never know it could be so right

It's over now..

Oh you make it feel so right
Oh you make it feel so right
Oh you make it feel so right
It feels so good with you tonight

When I think of the days,
I can not be fighting different ways

When I think of the nights,
Never know it could be so right

It's hard to believe when I know it's true
You given me a different point of view
I never had a love within my side
It feels so good with you tonight

Oh you make it feel so right
Oh you make it feel so right
Oh you make it feel so right
It feels so good with you tonight

Oh you make it feel so right
Oh you make it feel so right
Oh you make it feel so right

It feels so good with you tonight

Oh you make it feel so right

Oh you make it feel so right

Oh you make it feel so right

It feels so good with you tonight

Oh you make it feel so right

Oh you make it feel so right

Oh you make it feel so right

It feels so good with you tonight...
