

I'm Only Human

Dave Edmunds

Hey little baby, come out tonight
Don't worry honey I'll be polite
If I was gonna let you come to harm
I wouldn't wanna have you baby on my arm
But if I weaken, understand
Baby, I'm only human

Don't let the stories you've been told
Lead you to believe I can't be good as gold
I know they say that I'm the real McCoy
But tonight I'm a little Lord Fauntleroy
But if I get a case of wandering hands
Baby, I'm only human

Yes there's been some another facts to ride and cheat
But I'm learning now to prove I'm turning over a brand new leaf

I know the tales they tell in town
I know the rumours goin' around
They say I only wanna kiss and run
They say I only wanna have a big fun
Believe me baby just hard as you can
It's just that I'm only human

Yes there's been some another facts to ride and cheat
But I'm learning now to prove I'm turning over a brand new leaf

I know the tales they tell in town
I know the rumours goin' around
They say I only wanna kiss and run
They say I only wanna have a big fun
Believe me baby just hard as you can
It's just that I'm only human
