

Thread Your Needle

Dave Edmunds

Well you better thread your needle
Honey and sew your mouth up tight
You better thread your needle
Honey and sew your mouth up tight
Keep out of other people's business
'Fore you start a great big fight

Well morning, noon and night
Say, you're always on the phone
Why don't you leave people's business alone
And thread your needle
Honey and sew your mouth up tight
Keep out of other people's business
'Fore you start a great big fight

Well

Well one day all these people you keep on talkin' about
Gonna get together, gonna do some finding out
I can see you know, packing all you own
Keeping out of trial on the first thing gone
And thread your needle
Honey and sew your mouth up tight
Keep out of other people's business
'Fore you start a great big fight

You better thread your needle
Honey and sew your mouth up tight
You better thread your needle
Honey and sew your mouth up tight
Keep out of other people's business
'Fore you start a great big fight
