

I Swear

Dave Hause

I've been breaking promises in the dark
You've been doubting everything in the time we spend apart
We knew this was a gamble from the start
Now we've been trying everything just keep our hearts
If it all burns down, if it all just blows away

I swear I'll love you to 'til the end
If it all burns down and you don't come around
I'll be your friend

I'm sweating all alone here in the dark
Are you sleeping soundly all the nights we spend apart?
We knew this was a gamble from the start
And now I'm trying everything, just to keep your heart
If it all burns down, if it all just blows away

I swear I'll love you to 'til the end
If it all burns down and you don't come around
I'll be your friend

I swear I'll love you to 'til the end
If it all burns down and you don't come around
I'll be your friend

I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
What we build and what we burn
What we live and what we learn
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
What we build and what we burn
What we live and what we learn
I'll love you 'til the end
I'll love you 'til the end
I'll love you 'til the end
