

Leave It in That Dream

Dave Hause

I doubt I'd do it if I got the chance
But I keep wishing for that fever trance
It's a dream I keep having where I'm rolling round Daisy Field
with you
Your lips touch mine and I wake up not knowing what's true

I doubt I'd do it if I got the chance
Is this a symptom or just happenstance?
The dream I keep having in that cabin where you got snowed in w
ith me
I wake up scratching that limb like an amputee

I still dream of you
Lying out there dreaming of me too
If you dream of me
Don't tear my whole world apart
Leave it in that dream

Would she do it if she got the chance?
Stiff drinks silk sheets and that knowing glance
Does she dream about being out wild fishing for that hotel key?
Then wake up shaking like Judas hanging on that tree

Singing I still dream of you lying out there dreaming of me too
If you dream of me
Don't tear my whole world apart
Leave it in that dream

Don't go breaking nobody's heart
Leave it in that dream
Don't tear my whole world apart
Leave it in that dream
