

Low

Dave Hause

You came around when I had my sparkle on
I had the shimmer and shine of a three drink buzz
But the fog rolled in the middle of the happy hour
Like it sometimes does
Like it always does

Would you love me when I'm low?
Would you love me when I'm low?

My get up and go must have got up and went
Like the elves quit the workshop inside my head
Would you be the fountain when I'm the drain?
Be the rainbow prism in the driving rain?
Climb the mountain to the top of the pain?

Would you love me when I'm low?
Would you love me when I'm low?
Are you breaking down the door
To scrape me off the floor?
Would you love me when I'm low?

If I fall off would you still come around?
Would you be the band when the ship goes down?
If I fall off would you still come around?
Would you be the band when the ship goes down?
If I fall off would you still come around?
Would you be the band when the ship goes down?

Would you love me when I'm low?
Could you love me when I'm low?
Would you love me when I'm low?

Are you breaking down the door
To scrape me off the floor?

Would you love me when I'm low?
Could you love me when I'm low?
Would you love me when I'm low?
