

# My Mistake

Dave Hause

She was hanging round in her small town crown  
With the king of shit mountain, the prom king clown  
Trying to keep his grip clutching to her hip  
We locked eyes in that dive and the king got clipped

It was my mistake  
I was asleep but now I'm wide awake, wide awake  
My mistake turned me around  
It took the time it takes  
I was asleep and it was my mistake

I had lost my aim playing a young man's game  
Always loving something different till it's all the same  
Stumbling along stiff drinks and songs  
I'd gotten pretty good at getting gone

It was my mistake  
I was asleep but now I'm wide awake, wide awake  
My mistake turned me around  
It took the time it takes  
I was asleep and it was my mistake

Sweetness  
I never felt this kinda heat this  
Is either real or this is weakness  
Don't wanna listen to my head  
Oh Sweetness  
Oh listen to my head

We spent 1000 nights under the neon lights  
Just feeding our destructive little appetites  
Time went by and I decided not to fight  
She dared me to clean up and maybe I just might  
Gonna swear off my abandon and clear my sights

Oh my mistake  
Oh my mistake  
I was asleep but now I'm wide awake, wide awake  
My mistake turned me around  
It took the time it takes  
I was asleep but now I'm wide awake
