

# Pedal Down

Dave Hause

Has it kicked in yet?  
The guy who sold it said you'll start to sweat  
Your stomach churns like you've gotta confess  
Grab the last of it the sun just set

Keep the windshield clear  
All the shaking makes it hard to steer  
Getting jumpy like an auctioneer  
Am I the headlights or am I the deer?

We told our half truths to the neighbors  
Tried not to look them in the eye  
We headed out when the sun went down  
Driving north on 95

We can grieve it later  
Keep the pedal down  
We can grieve it later  
Keep the pedal down  
Keep the pedal down

Has it sunk in yet?  
When you see it you can't forget  
There's a window while the concrete's wet  
It's kinda looking like the footprint's set

We can grieve it later  
Keep the pedal down  
We can grieve it later  
Keep the pedal down

They said you'd make such good parents  
It sounds like old fashioned fun  
Fall in love by the iPhone light  
One each a daughter and a son

But we lead our lambs to slaughter  
It's profit, boot straps, and guns  
Every god needs a sacrifice  
Honey what have we done?  
What the fuck have we done?

Is anyone out there?  
Is this thing on?  
The temple is sacked and the healers are gone  
You'll turn into a pillar of salt if you dare turn around

Is anyone out there?  
Is this thing on?  
The temple is sacked and the healers are gone  
You'll turn into a pillar of salt if you dare turn around  
Don't you dare turn around

We can grieve it later  
Keep the pedal down  
We can grieve it later  
Keep the pedal down

We can grieve it later  
Keep the pedal down  
Keep the pedal down  
Keep the pedal down  
Keep the pedal down  
  
Keep the pedal down
