

## Saboteurs

Dave Hause

In the morning glow I'll hold you close  
While lunatics clutch the nuclear codes  
And take their tolls on burning roads  
As we huddle here over the radio

We'll meet there soon in the vestibule  
In the ivory tower with our rusted tools  
And right these wrongs with our crippled throng  
It's not too late to play a weak hand strong

Hey, if you want it  
Baby let's be saboteurs  
Take 'em down from the inside  
Baby let's be saboteurs  
I'm not gonna change my mind  
In the poison glow of the undertow  
We'll kick against the tide  
Baby let's be saboteurs  
Baby let's be saboteurs

I'm not gonna change my mind and toe the line  
And be the victim of another "victimless" crime  
We'll make this pact, one we can't take back  
Our master stroke will be their heart attack

Hey, if you want it  
Baby let's be saboteurs  
Take 'em down from the inside  
Baby let's be saboteurs  
I'm not gonna change my mind  
In the poison glow of the undertow  
We'll kick against the tide  
Baby let's be saboteurs  
Baby let's be saboteurs  
Hey-yeah...

I'm not gonna change my mind  
Baby let's be saboteurs  
Take 'em down from the inside  
Baby let's be saboteurs  
I'm not gonna change my mind  
In the poison glow of the undertow  
We'll kick against the tide  
Baby let's be saboteurs  
Baby let's be saboteurs  
Baby let's be saboteurs  
Baby let's be saboteurs, saboteurs
