

# Snowglobe

Dave Hause

You said we're growing like a cancer on this world  
We watch the weakest of us wither and die as we watch the flags  
unfurl

You were lost standing in that swirling snow  
Stood still like a figurine in a plexiglass globe

I think I caught you on a bad day, in a bad week, in a bad month  
Of a terrible year

Stuck hanging in there in that snow globe  
It's like a fever but you're ice cold  
Stuck hanging in there In that snow globe

You said you couldn't find the meaning in the days  
You said you couldn't find your get up and go or a good reason  
to stay  
I called you up it was like tapping on the glass  
It's cold comfort saying you're not alone or telling you it'll  
pass

Stuck hanging in there in that snow globe  
It's like a fever but you're ice cold  
Stuck hanging in there in that snow globe

I'm just trying to give you some little spark  
I'd rather light a candle than curse the dark  
It's sad but it's true not much I can do  
Just don't quit on me and I won't quit on you  
You're stuck in a bubble in a little snow globe  
Way down in a hole

I think I caught you on a bad day in a bad week in a bad month  
Of a terrible year

Stuck hanging in there in that snow globe  
It's like a fever but you're ice cold  
Stuck hanging in there In that snow globe  
You got a tree that won't fruit  
You got a shot but can't shoot  
You're stuck hanging in there in that snow globe  
It was a terrible year
