

# The Ditch

Dave Hause

Is my skin on fire again?  
Can I walk out on the ocean  
With my long lost friend?  
Eyes open wide all night  
I'd throw a rope around the moon  
If I could turn the tide

'Cause I shake shake shake shake alone  
I'm shaking every night and day  
Will my shake-shake-shaking ever go away?

If I can't make it out of this ditch  
I better make a home of it  
If I can't get down off this ledge  
I better make a home of it  
I better make it home  
I better make it home

Is it the month of May again?  
The heat seeps in my windows  
And my clothes stick to my skin  
If you held me close and lock the door  
We could kick against the current  
And hope we find a shore

'Cause I shake shake shake shake alone  
I'm shaking every night and day  
Will my shake-shake-shaking ever go away?

If I can't make it out of this ditch  
I better make a home of it  
If I can't get down off this ledge  
I better make a home of it  
I better make it home  
I better make it home

Will you shake shake shake shake at home with me?  
(Shake shake shake shake at home with me)  
Will you shake shake shake shake at home with me?  
(Shake shake shake shake at home with me)  
Will you shake shake shake shake at home with me?  
(Shake shake shake shake at home with me)  
Will you shake shake shake shake at home with me?  
(Shake shake shake shake at home with me)  
Shake at home with me  
(Shake shake shake shake at home with me)  
Shake at home with me  
(Shake shake shake shake at home with me)  
Shake at home with me

If I can't make it out of this ditch  
If I can't get down off this ledge  
I better make it home  
I better make it home  
I better make it home  
I better make it home  
I better make it home
