

# Almost

Dave Hollister

I was mad as hell at you  
Walked out with intentions to  
Get up with this honey  
I just met on Monday  
'Cause I knew she was down

We went and had a drink or two  
But all I did was think of you  
And how I really love you  
In spite of all our troubles  
And so I stop myself

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce

I know it's not that easy girl  
But you gotta believe me girl  
'Cause baby I ain't lyin'  
I'm just sick of fightin'  
And arguin' with you

Baby, why can't we be?  
The way that we  
Were once before  
And you weren't getting on mine  
And I wasn't getting on your last nerve

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce

I was wrong, I was all wrong yesterday  
Should've never left you feeling that way  
I apologize for makin' you cry  
Baby please forgive me

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her
