Reason With Your Body

Dave Hollister

Oh, your body body, ooh your body body
Oh, your body body, yeah yeah
Ooh, your body body, oh your body body
Girl I want you, come on

Come on
I need you bad as old folks needs soft shoes
Come on
I'm drunk off your I'm like I had to much absolute, come on
Come on
Girl I make you scream like a scary movie's on
Come on
I'm talking to your body 'cause your mind tryin' to be strong, oh

Let me reason with your body, I wanna talk
Let me talk with your body, I wanna leave, yeah
Have a meeting with your body
'Cause your mind may not understand what your body needs

Let me reason with your body, I wanna talk
Let me talk with your body, I wanna leave
Have a meeting with your body
'Cause your mind may not understand what your body

Come on
I'm a work it like them thugs and hustlers work those streets
Come on
Well let me jump your fence like I'm runnin' from the police
Come on
Oh, let me bounce, bounce like I'm hittin' switches in my ride
Come on
Like I'm tryin' to get out the rain I wanna come inside

Let me reason with your body
Let me talk with your body, I wanna leave, yeah
Have a meeting with your body
'Cause your mind may not understand what your body needs

Let me reason with your body, I wanna talk
Let me talk with your body, I wanna leave, yeah
Have a meeting with your body
'Cause your mind may not understand what your body needs

Listen up
I got your body surrounded
Don't make any sudden moves
Or you make a bigger mess then you want to

What is your list of demands
Let me see if I can
Talk to someone in charge
I'm tryin' a understand

Unless the hostage is off
Your toes, your thighs, your legs
I'm the negotiator and I'm not to proud to beg
I can defuse the situation

With a little communication
To let your body go, with no hesitation

Let me reason with your body
Let me talk with your body, I wanna talk to the body
Have a meeting with your body
'Cause your mind may not understand what your body needs

Let me reason with your body
Let me talk with your body
Have a meeting with your body
'Cause your mind may not understand what your body needs

You're feeling me to say
Fuckin' now you're body say

With a little communication
To let your body go, with no hesitation

Let me reason with your body
Let me talk with your body, I wanna talk to the body
