

# Take Care Of Home

Dave Hollister

Gotta take of home  
Know what I'm saying  
Cause if you don't take care of home  
Somebody else will, ya feel me?  
Y'all know what I'm talking 'bout  
Check it

If she thinks you don't say it enough  
Tell her you love her  
Every time that your baby  
Comes across your mind, heh yeah heh  
And if you think your girl wants the world  
Be the sunshine that brightens up her life  
Don't let her get away, no

Don't let her get away  
If you really care enough  
Love her everyday  
Over and over and over

If you take care of home  
You don't have to worry your girl  
Take care of home  
Take care of home  
Maybe if you keep her first  
You don't have to worry your girl  
Take care of home  
Take care of home

Hold her hand when you walk through the mall  
Cause you know she likes it  
Do all the little things you used to do, hmm mmm  
Day and night make sure you live to keep her happy  
Make her realize how beautiful she is  
She's so beautiful  
Don't let her, no...

Don't let her get away  
If you really care enough  
Love her everyday  
Over and over and over

If you take care of home  
You don't have to worry your girl  
Take care of home  
Take care of home  
Maybe if you keep her first  
You don't have to worry your girl  
Take care of home  
Take care of home

If you take care of home  
You don't have to worry your girl  
Take care of home  
Take care of home  
Maybe if you keep her first  
You don't have to worry your girl

Take care of home  
Take care of home

You got a queen  
So take care of her in every way  
(You're so lucky yes you are, hmm)  
You know that she adores you  
So worship the ground she walks on

If you take care of home  
You don't have to worry your girl  
Take care of home  
Take care of home  
Maybe if you keep her first  
You don't have to worry your girl  
Take care of home  
Take care of home
